25th September 2007

Dear Sir,

INSTALLATION OF EXPANSION JOINT IN PORT DICKSON POWER BERHAD

This is to confirm that LANDFELD QUASA ENGINEERING SDN BHD has successfully completed the above work order both within the contractual period and the contract value.

The scope of the work involved the followings

- Replacement of the Exhaust Duct Expansion Joints for the GT 1, 2, 3 & 4 , Frame 9171E General Electric Gas Turbines.

We are pleased to state that LANDFELD QUASA ENGINEERING SDN BHD has given its total commitment and efficient monitoring and this has contribute tremendously for their work completion during the outage period. We are also please to inform that the entire Expansion Joints installed working perfectly as per design standard.

We take this opportunity to thank them for their completion of works with highest safety standard and fulfilled PORT DICKSON POWER BERHAD safety requirement.

Should you need further information regarding the above, please do not hesitate to contact me at 012-3810500 or email to llukmanh@simedarby.com

Best Regards

LUKMAN HAKIM MOHD ALI
Maintenance Manager
